

I'm very concerned about the upcoming vote on media ownership. I feel as if we in the public have not been properly informed about this important issue, and more time should be allowed for discussion before a vote is held. Just about everyone I talk to hasn't even heard of this vote or know much about it. Please allow for more discussion, just the fact that it is so hard to find information on it is very telling that concentration of media ownership is very dangerous to democracy.
